Our Expert speakers... Bill Betley & Jonathan Judge from Atkinson, Andelson, Loya, Ruud & Romo

William Betley practices in all areas of employment law, including unlawful harassment, discrimination, wrongful termination, employee classification, and wage and hour. **Jonathan Judge** represents employers in labor law and various employment litigation matters and advises employers on personnel policies and employee handbooks.

*The Affordable Care Act (ACA) commonly called **Obamacare** is a Federal statute signed into law by President Barack Obama on March 23, 2010. It represents the most significant government expansion and regulatory overhaul of the country's healthcare system since the passage of Medicare and Medicaid in 1965.*

While the Treasury Department has delayed large employer penalties under the ACA until 2015, other provisions of the law will continue on without delay. This program will provide a history of the three-year old law so participants may understand the three key concepts that affect employers: the employer mandate, the individual mandate and the insurance marketplace.

We will discuss the penalties, the reporting and notice requirements and what information employees will need their employers to provide regarding the insurance marketplaces (previously known as the “exchange”). We will also explore the major “burning questions” that employers have had concerning the ACA and its impact on the workplace.

This program is approved by the HRCI for 2.75 General credit hours toward PHR, SPHR and GPR recertification.

REGISTRATION FORM

Please RSVP by Monday prior to the workshop
