Employment Law Update - Tips and Trends for 2015

 Paul Fleck, Esq. from Atkinson, Andelson, Loya, Ruud & Romo

Join us to discuss the important, and sometimes unexpected, implications of recent employment trends. We will provide special focus on the following areas:

- The “Do Nothing” Congress...How Local Governments are Filling in the Gaps
- The Increase in Sophisticated Disability Claims...What’s an Employer to Do?
- The Wage & Hour Drum Keeps Beating...New Theories of Recovery
- The New Legislation for 2015

This briefing will provide practical practice tips to limit employers' liability in 2015.

Crushing Your Workers' Compensation Costs

 Tai Shibayama / Director of Safety/Wellness - S&K Financial & Insurance Service, Inc.

 John Saunders / Senior Loss Control Specialist - Berkshire Hathaway Inc.

 Teresa Long / Director of Claims Management - S&K Financial & Insurance Service, Inc.

Our field of experts will be reviewing these hot topics:

- How much excess \$ premium does your company allow the Insurance Company to take from you on a yearly basis? We'll show you how the State of California GRADES your performance compared to your competitors.
- What has your company done to avoid and prepare for post termination claims? We will show you 3 options to consider.
- What processes has your company put in place to minimize fraud?
- How many of your supervisors have been trained in accident investigation? Give them the tools for a successful loss control program.
- Who is caring and communicating with the injured worker? We will unveil a process that is cutting costs and will pay for itself 10x over.

If you're paying \$100,000 in EXCESS workers' comp premium - you don't have time to sit and wait.

Your competitors have a significant advantage and you need an agent with ideas, answers and a plan of attack.

When:

Thursday - January 22th, 2015
