Their Technology, Our Business *Strategies For Dealing With Personal Technology Devices and Remote Use*

As students and employees increasingly rely on personal technology devices and remote access, educational institutions should not ignore the related legal issues which are impacting business, individuals, and learning. Our *Education Law Technology Symposium* will explore issues in these key areas:

- Staff Use of Personal and Remote Technologies
- Copyright and Work for Hire
- Students and BYOD
- Cyberbullying

Administrators from K-12 and Higher Education institutions are invited to attend all sessions. After lunch, the primary focus will be on issues facing institutions with students who are minors.

Join us for these **complimentary** sessions. For more information, please contact Keesha Clark at (562) 653-3453 or kclark@aalrr.com.

Please R.S.V.P. as space is limited!
