Protecting Organizational Assets

As the economy continues to expand and employees seek new opportunities outside their current organizations, employers face increased potential litigation, in light of recent court decisions concerning employee pay. In addition, employers are encountering increased challenges relating to protection of confidential information, trade secrets and other intellectual property.

Please *join us* at our September breakfast briefing series as our attorneys discuss the latest wage and hour pitfalls and best practices for protecting company assets. We will explore the following areas::

- Best practices for reducing liability in light of the recent California Supreme Court decision regarding paying for all hours worked, including *de minimis* time;
- Best practices for protecting confidential trade secret information and other intellectual property particularly in the context of employee mobility; and
- Tips for addressing the challenges imposed by a constantly evolving workforce and increased employee mobility and recruitment.

Please join us for this complimentary informative session and learn the practical tips to improve your skills in these areas.
