With school districts still facing uncertainty as to the funding they may expect to receive for next year and beyond, further staffing reductions may become an unfortunate reality. In laying off classified employees, districts must adhere to the Education Code requirements, board policies addressing the subject, and collective bargaining agreement provisions regarding layoff. Come join us for an informative session on the continuing issues in the area of classified layoffs, including:

- *Grounds for Layoff*
- *The Layoff Process*
- *Reinstatement Rights*
- *Order of Layoff*
- *Bargaining Implications*
- *Recent Case Law*
