CLASS ACTION DEFENSE

AALRR has been defending businesses and employers in class action lawsuits for over twenty five years. Over the past several years, wage and hour class action litigation has grown tremendously in California. AALRR has defended employers in many of these class actions. Collectively, AALRR has defended hundreds of class actions. AALRR has the capability and staffing to defend multiple class actions at the same time. We effectively and efficiently staff cases, and make use of new software and technologies to successfully manage class action litigation.
